

LG3 Network edition Activation Steps (on PC with no Internet Access)

Manage license

Welcome to Product Activation Wizard
This wizard will guide you through the product activation process.

Product has not yet been activated or no valid licenses could be found. Please follow this Activation Wizard to activate your copy of product or troubleshoot your active license.

Please choose product activation method:

- Hardware Key
- Single User Software Key
- Network Software Key

1. First you have to install LG3 Network edition then select Network Software Key.

2. Click Next

Cancel < Back Next > Finish

Note: If you can't find this screen, click on Help, then Manage License at the Menu

Manage license

Network installation location
Select network installation location.

Network installation could not be found. Please select network location where product was installed. You can also specify secondary (backup) network location, which will be used if primary location is not available.

Make sure to enter the location in the UNC syntax even if the files are available on the local disk. Do not use the syntax with local or mapped drives.

For example: if you are sharing the folder C:\Application as 'Application' on the 'Server', the UNC path to the location is '\\Server\Application'.

Primary network location
 ...

Secondary (backup) network location
